

1 In the App Store on your iPad, find Microsoft Word for iPad. Tap the Free button and install the app. Once Word is installed, open it. Swipe through the three introduction screens until you get to the sign-in screen.

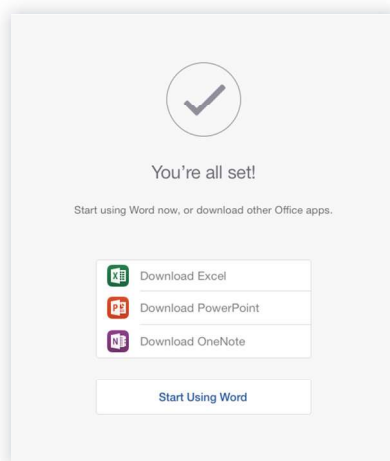

2 Sign in with a Microsoft account or Office 365 account. Signing in keeps your documents up-to-date across all devices connected to OneDrive or Office 365.

3 Enter your email address. If you have an Office 365 account, use the email address associated with that account. Otherwise, use a Microsoft account, for example the email address you use for Outlook.com, Xbox, OneDrive, or other Microsoft services.

4 Enter your password and you're ready to get started with Office for iPad.

5 Once you have signed into one app, you don't need to sign into the other apps again.
